

Cassidy Written by Trevor Yates

[Verse]

Spirals in the night flicker lights fade
Lost dreams wandering in a burnt parade
Glory days whispered through the haze
My Cassidy grinds through life's maze

[Verse 2]

She's got that fire you can't tame
Eyes like broken glass showing the pain
Unraveled mind dancing in the rain
Cassidy you fight through the insane

[Chorus]

Twenty-one years of rage and desire
Burning through the smoke set on fire
Screaming out loud never retiring
Cassidy's spirit always climbing higher

[Chorus]

Twenty-one years of rage and desire
Burning through the smoke set on fire
Screaming out loud never retiring
Cassidy's spirit always climbing higher

[Verse 3]

City streets whisper your name
Twisted shadows part of the game
Broken hearts sin turned to flame
Cassidy rising never the same

[Verse 4]

Days turned nights always on the run
Searching for light in a dying sun
Voices of angels but hear none
Cassidy fearless till the battle's won

[Bridge]

In the battlefields of her mind
Chains and scars both intertwined
Running from ghosts seeking what to find
Cassidy you fight threw the insane

[Chorus]

Twenty-one years of rage and desire
Burning through the smoke set on fire
Screaming out loud never retiring
Cassidy's spirit always climbing higher

[Chorus]

Twenty-one years of rage and desire
Burning through the smoke set on fire
Screaming out loud never retiring
Cassidy's spirit always climbing higher

[Verse 5]

City streets whisper your name
Twisted shadows part of the game
Broken hearts sin turned to flame
Cassidy rising never the same
