

Cassidy keep up the fight Written by Trevor Yates

[Verse]

Little girl in a world that's cold and wild

Eyes like fire burning free and wild

Questions deep a soul untamed

Running hard against the shame

[Verse 2]

Cassidy you break the chains

Screaming loud in pouring rain

Heart like thunder can't be tamed

Life's a battle never lame

[Chorus]

Cassidy my angel in disguise

Shattered dreams but you always rise

World's so dark but you bring light

Hold on tight keep up the fight

[Verse 3]

Feet on fire on broken glass

Running fast never looking back

Voice like sirens shaking night

Fought the world for every right

[Bridge]

Don't you bend don't ever break

Despite the trials a heartache

Cassidy your spirit's bold

In this cruel world you turn gold

[Chorus]

Cassidy my angel in disguise

Shattered dreams but you always rise

World's so dark but you bring light

Hold on tight keep up the fight

[Bridge]

Don't you bend don't ever break

Despite the trials a heartache

Cassidy your spirit's bold

In this cruel world you turn gold

[Chorus]

Cassidy my angel in disguise

Shattered dreams but you always rise

World's so dark but you bring light

Hold on tight keep up the fight
