

Granada Hills High 2.44 Written by Trevor Yates

[Verse]

Another day another fight in the halls

Graffiti scrawled high on the walls

Sweat drips the tension's thick

Granada Hills makes the rebel tick

[Verse]

Teachers drone while my mind roams free

Dreams confined this prison they can't see

Echoes of laughter haunt these streets

Granada Hills got me beating to different beats

[Chorus]

Granada Hills we're breaking out

Rising up with a primal shout

Finding our way through concrete skies

Granada Hills we'll never die

[Verse]

Windows to nowhere brick and stone

Trying to carve a path on my own

Life's a warzone no retreat

Granada Hills pounding with the heart's heat

[Bridge]

Night comes the city sleeps

Restless souls silence creeps

Stars above light my quest

Granada Hills won't let me rest

[Chorus]

Granada Hills we're breaking out

Rising up with a primal shout

Finding our way through concrete skies

Granada Hills got me beating to different beats

[Chorus]

Granada Hills we're breaking out

Rising up with a primal shout

Finding our way through concrete skies

Granada Hills got me beating to different beats

[Chorus]

Granada Hills we're breaking out

Rising up with a primal shout

Finding our way through concrete skies

Granada Hills we'll never die

Granada Hills we'll never die
