

Ocean Whisper Written by Trevor Yates

[Verse]

The sun's a blaze on the golden shore
Waves crashing loud
They're begging for more
Salty air wraps around my face
This beach
My home
My untamed space

[Chorus]

Sand in my shoes
But I don't care
The ocean whispers
Pulling me there
Time stands still
The tide's got a hold
Where the water's deep
My story's told

[Verse 2]

Footprints fade where the sea line creeps
The secrets it hides
The secrets it keeps
Gulls they scream in the endless blue
The beach is alive
And I'm part of it too

[Chorus]

Sand in my shoes
But I don't care
The ocean whispers
Pulling me there
Time stands still The tide's got a hold
Where the water's deep
My story's told

[Bridge]

Bonfire sparks dance up to the night
Stars above us
So bold
So bright
There's no place I'd rather belong
The beach is my anthem
My lifelong song

[Chorus]

Sand in my shoes
But I don't care
The ocean whispers
Pulling me there
Time stands still The tide's got a hold
Where the water's deep
My story's told
