Samantha's Sacred Hands Written by Trevor Yates

[Verse]

Samantha walks the night streets

Healing broken bones and lost souls

Every life she touches glows bright

In this world of pain and endless fights

[Verse 2]

In shadows she finds her strength

Under fluorescent light she battles

With tired eyes but a heart so fierce

Saving lives through her silent tears

[Chorus]

She's my warrior in the white

Every breath she gives a fight

Samantha with sacred hands

Healing wounds across this land

[Verse 3]

She's known the darkest days

Lost in the maze of hospital halls

Yet her spirit never fades

Against every odd she always stands tall

[Verse 4]

The blood and the cries she's seen

Cutting through the noise like a dream

Her heart beats with ancient power

In every frail hour she'll never cower

[Chorus]

She's my warrior in the white

Every breath she gives a fight

Samantha with sacred hands

Healing wounds across this land

[Chorus]

She's my warrior in the white

Every breath she gives a fight

Samantha with sacred hands

Healing wounds across this land
