

Troubled Dreams Written By Trevor Yates

[Verse]

Trevor grinds through the city streets
Midnight oil burns in the dark
He's chasing shadows in the neon gleam
Lost in a maze no end in sight

[Verse 2]

Maria dances on broken glass
Smiling through her tattered dreams
Her laughter echoes through empty halls
A silent scream a hidden past

[Verse 3]

Maria dances on broken glass
Smiling through her tattered dreams
Her laughter echoes through empty halls
A silent scream a hidden past

[Chorus]

Trevor and Maria souls collide
In the alleyways where they confide
Pain and love like burning wires
Living in shadows hearts on fire

[Verse 4]

Trevor's fists hit the cold hard wall
His rage a storm that won't subside
Maria's tears fall silently
A quiet flood she tries to hide

[Verse 5]

Dreams they clutch but always slip
Through their fingers like sifting sand
Together weaving tales of woe
Hearts entangled scars that show

[Bridge]

They sing of freedom in the night
In whispers soft beneath the moon
A hope that flickers faint but real
In each other they find truth

[Bridge]

They sing of freedom in the night
In whispers soft beneath the moon
A hope that flickers faint but real
In each other they find truth

[Chorus]

Trevor and Maria souls collide
In the alleyways where they confide
Pain and love like burning wires
Living in shadows hearts on fire

[Verse 6]

Dreams they clutch but always slip
Through their fingers like sifting sand
Together weaving tales of woe
Hearts entangled scars that show
Living in shadows hearts on fire
