

Two golden lights that brighten my day Written by Trevor Yates

[Verse]

Two golden lights that brighten my day
Samantha and Cassidy
My anchors
My way
Through chaos and noise
They calm my soul
With them by my side
I finally feel whole

[Verse 2]

Samantha Your laughter shakes the skies
Cassidy Your courage lights up my life
Two hearts that beat as the rhythm of mine
With every step forward
Together we climb

[Chorus]

Samantha and Cassidy
My stars at night
Guiding me steady
Making everything right
You're my melody You're my song
With you in the world
I feel twice as strong

[Verse 3]

With dreams in your pockets
You take on the world
Shooting for stars
My two precious girls
Every stumble Every fall
I'll be here A father who loves you
Always near

[Bridge]

Every smile you give
My heart rewinds
To rocking chairs and bedtime rhymes
Now you run free
Chasing your plans
While I cheer quietly from the stands

[Chorus]

Samantha and Cassidy
My stars at night
Guiding me steady
Making everything right
You're my melody You're my song
With you in the world
I feel twice as strong

[Verse 4]

With dreams in your pockets
You take on the world
