

Who Is My Friend Written by Trevor Yates

[Verse]

Shadows creeping round my soul
Faces blur and take their toll
Words they twist like rattling chains
Tell me who can stop this pain

[Verse 2]

Lies that echo through the air
Trust is broken everywhere
Hands that reach then fade away
Tell me who will choose to stay

[Chorus]

Who is my friend who knows my name
Who will stand through fire and rain
All the whispers they start to bend
Come on tell me who is my friend

[Verse 3]

Gritted teeth and clenched up fists
Promises lost in the mist
Eyes so dark they hide their shame
Tell me friend can you claim the flame

[Verse 4]

High road low road I can't find
Every path just feels confined
Lightning strikes and hearts defend
Tell me now who's my true friend

[Chorus]

Who is my friend who knows my name
Who will stand through fire and rain
All the whispers they start to bend
Come on tell me who is my friend

[Chorus]

Who is my friend who knows my name
Who will stand through fire and rain
All the whispers they start to bend
Come on tell me who is my friend
