

## **Wild Love for Maria 2.46 Written by Trevor Yates**

[Verse]

Dark nights swellin' under streetlights  
Maria stands there her hair in the breeze  
World spins madly but she's my calm  
Eyes lock mine and it's all I need

[Verse 2]

Heartbeat thunder crashes down  
Maria whispers and I'm found  
No more runnin' from this haze  
Wrap me up in your love's blaze

[Chorus]

Maria your name's a song in my soul  
Maria your touch makes me whole  
Run with me we'll break these chains  
In the storm of love remains

[Chorus]

Maria your name's a song in my soul  
Maria your touch makes me whole  
Run with me we'll break these chains  
In the storm of love remains

[Verse 3]

Shadows crawling through empty halls  
Maria lights up all these walls  
Every struggle melts away  
With you my life's a new day

[Verse 4]

Lost in dreams your voice guides me

Maria's kiss sets my soul free

Eyes wide open no more lies

Together rise above the skies

[Chorus]

Maria your name's a song in my soul

Maria your touch makes me whole

Run with me we'll break these chains

In the storm of love remains

[Chorus]

Maria your name's a song in my soul

Maria your touch makes me whole

Run with me we'll break these chains

In the storm of love remains

love remains
