

Palm Springs Dreaming Written by Trevor Yates

[Verse]

Golden sun and desert skies
Mountains painted where dreams arise
Palm trees sway like they know the tune
Palm Springs glow beneath the moon

[Chorus]

Palm Springs baby you're my scene
Hot as the sand but fresh and clean
City of dreams where the colors gleam
In your arms I'll always beam

[Verse 2]

Neon nights and a vintage vibe
Every corner's got a secret tribe
Cactus blooms and a poolside sway
Life feels brighter every day

[Chorus]

Palm Springs baby you're my scene
Hot as the sand but fresh and clean
City of dreams where the colors gleam
In your arms I'll always beam

[Bridge]

Cruisin' streets where the past collides
Mid-century whispers in modern tides
With every step my heart takes flight
Palm Springs magic feels so right

[Chorus]

Palm Springs baby you're my scene
Hot as the sand but fresh and clean
City of dreams where the colors gleam
In your arms I'll always beam
