

She's got a spark Written by Trevor Yates

[Verse]

She's got a spark that lights the room
A tidal wave that breaks the gloom
Eyes like fire they burn so bright
She owns the day she rules the night

[Chorus]

She got a killer body steals the show
Moves like thunder makes the world slow
Heart's a rebel her soul's untamed
She's the kind you'll never forget her name

[Verse 2]

Her shadow dances on the wall
The kind of dream you can't recall
She's a storm you chase but can't outrun
A loaded gun under the sun

[Chorus]

She got a killer body steals the show
Moves like thunder makes the world slow
Heart's a rebel her soul's untamed
She's the kind you'll never forget her name

[Bridge]

She's a wildfire burning wild and free
Every step's a line of poetry
She doesn't care who stops to stare
Her energy fills the empty air

[Chorus]

She got a killer body steals the show
Moves like thunder makes the world slow
Heart's a rebel her soul's untamed
She's the kind you'll never forget her name
